COLOUR SWATCH GUIDELINES: CCS Stylepave Resurfacing is created by hand trowelling or spraying through a hopper gun, on site, under varying weather and job conditions. The swatches depicted above show a fine grain finish. Due to changes in viscosity and surface texture, variations in colour when compared with the above swatches should be expected. For people unfamiliar with the finished product, we recommend that you view jobs already completed by your decorative concreter to gain an understanding of the appearance. Please consult with the CCS sales team or www.concretecoloursystems.com.au for project specifications.

Choose from the following Texture options for your surface finish

Fine Grain

Grecian Speckle

Combo Fleck
(two or three colours)

Random Stone

Roman Trowel

Timber Grain

Augustan Stone

Ocean Swirl

Knockdown

Impression Stencil

How to specify your Stylepave Overlay

- 1 Choose or sketch up a free form or geometric pattern
- 2 Choose the colours for each element of your design
- 3 Choose the texture you wish it to be finished in
- 4 Choose the commercial or regular brand of protective sealer

The make up of Stylepave Overlays

The Stylepave Overlay is a polymer modified high strength, cement based, coloured mortar that is spray applied by a skilled applicator using a "hopper gun" (see picture).

It is generally applied in two coats. This is immediately sealed with two coats of either the CCS commercial grade Armourthane sealer, or in residential applications; the CCS Hi-Build Enduro clear protective sealer.

The Stylepave Overlay system has been successfully used on numerous commercial and residential developments around Australia since the late 1990s.

Due to its great versatility in enabling multiple colours and designs to be incorporated into the project, it is becoming the system of choice for commercial and residential decorative concrete applications.

Hopper gun application of Stylepave.

Two coats of a clear CCS Sealer provides protection against dirt and grime

Concrete Colour Systems or CCS is one of Australia's leading suppliers of applied decorative concrete products. It is a product group division of the fully Australian owned company, River Sands Pty Ltd. The company began in 1974 and now operates multiple production facilities and sales offices around Australia.

The CCS products are made to a consistently high standard to assist your applicator in achieving an attractive and long lasting finish.
